Year 4 Project - Vikings

Task: Carry out your own research project to find out all about the Vikings.

How are you getting on with your project?

Please spend some time this week each afternoon working on your project.

Remember there are lots of ideas below, that you took home in your Home Learning Pack, to focus on.

Take a look at some of the websites suggested on our Y4 webpage (Year 4 Viking Project Useful Websites).

You might consider:

- Viking lifestyles, jobs and homes
- Where, when and how Vikings came to England
- Battles involving the Vikings
- What type of weapons they used
- Their alphabet (called runes)
- Viking ships
- Viking shields
- A typical Viking meal

Project ideas: You could create a poster, fact file; have a go at some art or model making (perhaps your own shield) or produce an extended piece of writing with your research findings.
