## Friday $24^{\text {th }}$ April

## Maths Challenge

Today's task is a maths challenge. The most suitable questions for Year 5 are 1-5. Discuss your working with your family. We'll go over the answers on Monday.

## Challenge 1

Can you work out the values of each shape?

$$
\begin{aligned}
& \hat{\hbar}+\hbar=20 \\
& -\hbar=7 \\
& -\hat{\hbar}=7
\end{aligned}
$$

## Challenge 2

Tom has six 10p coins and three 5p coins. He buys an apple for 59p and two pencils.
He has no money left. How much does a pencll cost?

## Challenge 3

Here are some digit cards.

Amir and Donno each make a three-digit number using oll the cords.
Amir notices that when he subtracts his number from Donna's number he gets an answer greater than 300 but less than 400 .

Whot numbers did they make?

## Challenge 4

Five identical rectangles are put together to make a large rectangle.
The width of one rectangle is 4 cm . Work out the perimeter of the large rectangle.

White

## Challenge 5

15 identied bleckg are lined up es shown.

112 cm

The length of each individual block is twice the width.
Iff all 15 blocks are then laid end to end lengthways, what is the total length of the block oltogether now?

## Extra Challenge:

## Challenge 6

Liam hos these three shopes

He uses them to make different towers. He meosures the height of each tower he mokes.

Liam stacks all three shapes to make one tall tower. How tall is the tower?

Discuss your working with your family.
We'll go over the answers on Monday.
