

Art Challenge: recreating tradition

This task is one that the whole family can get involved with. You may have seen online that The Getty art gallery in America set an online isolation challenge to recreate traditional artwork in the home using any materials, objects and props you have to hand.

Look at these examples. Some are light hearted and fun. You can see the people involved really enjoyed searching for colours and textures displayed in the original work. Others are much more thought out and detailed with lighting and poses almost perfectly recreated.

Challenge Instructions:

Step 1: Click the link to the right or search **100 most famous painting** in a google search. Select a work of art **you** would like to recreate.

Step 2: Begin to search the house for **colours, textures, lighting and objects** that are found in your artwork. You can use **ANYTHING!**

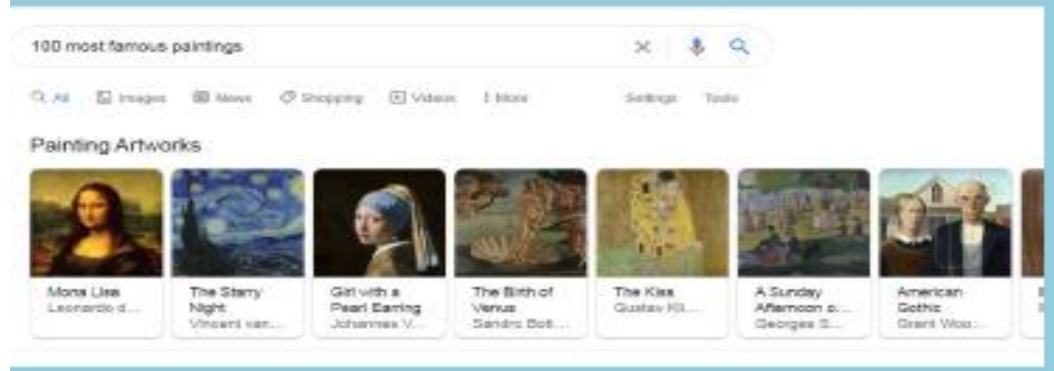

Step 3: Think about **composition, poses, angles and framing** to match your recreation to the original artwork.

Step 4: Post your recreated photograph along with a copy of the original with its artists name and title to Twitter using

@CulturedSTH
#recreate

Step 5: Have as much fun as possible and **enjoy** the art together. Look at the next slide for more examples.
