

Wednesday

Using past tense verbs.

Today we are going to look at past tense verbs. Past tense means something that has already happened.

For example

I watched a film yesterday.

Usually you add –ed to the end of the verb.

Present Tense tells us what is happening now.

I am watching a film.

# Task

Today I would like you to read the sentences that are written in present tense.

Can you read the present tense sentence and try to write the verb in past tense?
