

Year 2 Maths from Mrs.Ainsworth

3.6.20

4-a-day

1. $100 = 89 + ?$
2. $55 = 100 - ?$
3. $20 = 4 \times ?$
4. $7 = \frac{1}{2} \text{ of } ?$

Number bonds to 100

Over the next few days, I would like Y2 to improve their knowledge and speed of number bonds to 100. Ideas from the separate **workbook** (or all of it!) could be used.

Alternatively, you could **use two dice** to make a 2-digit number and work out which number would be its partner to reach 100. There are also some **online activities** both on education city and the links below;

Help?

Remember the website Mathsbot has online versions of the equipment mentioned. A 100 square could be useful for today's work. Base 10 is called Dienes on the website but it is the same type of resource.
