

Varied Fluency

Step 3: Counting in Coins

National Curriculum Objectives:

Mathematics Year 1: (1M3) [Recognise and know the value of different denominations of coins and notes](#)

Differentiation:

Developing Questions to support counting money more efficiently using 1p and 10p coins and using 'more than' or 'less than' to compare different amounts.

Expected Questions to support counting money more efficiently using 1p, 2p, 5p, 10p coins (in combinations of no more than two different coin values) and using 'more than', 'less than' and 'equal to' to compare different amounts.

Greater Depth Questions to support counting money more efficiently using combinations of 1p, 2p, 5p and 10p coins (in combinations of up to four different coin values) and using inequality symbols $<$, $>$, $=$ to compare different amounts.

Varied Fluency
Counting in Coins

Developing

- 1a. **4p, 6p, 30p**
2a. **False. The amount is 8p.**
3a. **B**
4a. **A**

Expected

- 5a. **5p, 12p, 20p**
6a. **True.**
7a. **B**
8a. **C**

Greater Depth

- 9a. **10p, 13p, 21p**
10a. **True.**
11a. **B**
12a. **B**

Varied Fluency
Counting in Coins

Developing

- 1b. **50p, 3p, 7p**
2b. **True.**
3b. **B**
4b. **C**

Expected

- 5b. **22p, 15p, 9p**
6b. **False. The amount is 20p.**
7b. **A**
8b. **B**

Greater Depth

- 9b. **23p, 16p, 14p**
10b. **False. The amount is 22p.**
11b. **A**
12b. **A**
